

Production of Mg-/Co-chelatases from different gene sets	Main taxa
 <p>Mg-chelatase</p>	Proteobacteria
 <p>Mg-chelatase</p> <p>Co-chelatase</p>	Proteobacteria
 <p>Mg-chelatase</p> <p>Co-chelatase</p>	Cyanobacteria
 <p>Co-chelatase</p>	Actinobacteria
 <p>Co-chelatase</p>	Proteobacteria Actinobacteria Archaea
 <p>Co-chelatase</p>	Proteobacteria Actinobacteria Archaea

- *chlD* gene with a frameshifting signal

- *fs-chlD* gene with a frameshifting signal and a frameshift mutation
